UK'S PREMIER PRODUCER OF DENTAL PRODUCTS

DENTAL PRODUCTS

www.novahenterprises.com 020 8347 5533

About US

Novah Enterprises Limited is one of the UK's fastest growing premier manufacturers and wholesale distributors of dental products. Our range of high quality dental products offer outstanding value and second to none in terms of quality and value for money. We supply our range of dental products to dental companies in the UK and other countries in Europe and Middle East.

All our product range carries the appropriate CE Marking and every single product is tested by our general dental practitioners and laboratory technician to ensure its quality and ease of use. We are continuously introducing new lines to meet the growing demand of our customers.

We always maintain high levels of stock to ensure that our customers never run out of their vital supplies and we are committed to ensuring quick and reliable deliveries.

Our team has vast experience in the dental industry and has wealth of product knowledge. We are also very experienced in international trade, export documentation and product accreditations.

If you would like any further information then please contact the Novah Enterprises team.

Aurora A-Silicone Soft Putty

Aurora HD⁺ Putty Soft is an A-silicone precision impression material. Ideal for fixed prostheses. Used for all crown & bridge, inlay & onlay, partial dentures and implant impressions. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- High precision in detail reproduction
- Good fluidity and plasticity
- High deformation strength
- Excellent elastic recovery
- High dimensional stability
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Purple Base and White Catalyst

Working time: 2 minutes

Setting time: 3 minutes (in the mouth)

Hardness (Shore A): 55

Code	Description	Pack Qty
NOV12420	Putty Soft 800g + 2 spoons	1

Aurora A-Silicone Heavy Body

Aurora HD⁺ Heavy Body is a hydrophilic high viscosity A-Silicone with heavy body consistency for fixed prostheses and implant impressions. Used for all crown & bridge, inlay & onlay and partial dentures. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- High precision in detail reproduction
- Good fluidity and plasticity
- High deformation strength
- Excellent elastic recovery
- High dimensional stability
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Pink

Working time: 2 minute 30 seconds

Setting time: 4 minutes 25 seconds

Hardness (Shore A): 62

Code	Description	Pack Qty
NOV12432	Heavy Body 100ml (2 x 50ml)	1

Aurora A-Silicone Light Body

Aurora HD⁺ Light Body is a hydrophilic very low viscosity A-Silicone with light body consistency for fixed prostheses. Used for all crown & bridge, inlay & onlay and partial dentures. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- Excellent precision in detail reproduction
- High tear strength
- Excellent elastic recovery
- High dimensional stability
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Pink

Working time: 2 minute 15 seconds

Setting time: 3 minutes 30 seconds

Hardness (Shore A): 53

Code	Description	Pack Qty
NOV12431	Light Body 100ml (2 x 50ml)	1

Aurora Bite Registration Material

Aurora HD⁺ Bite Registration is a A-Silicone bite registration material in cartridge format. 1:1 mixing ratio.

- Excellent precision in detail reproduction
- Non slumping consistency
- Easily Trimmable
- Easy handling
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Light Brown

Working time: 40 seconds

Setting time (in mouth): 1 minutes 40 seconds

Hardness (Shore A): 88

Code	Description	Pack Qty
NOV12436	Normal Set 100ml (2 x 50ml)	1

Aurora Chromatic Alginate (Fast Set)

A fast setting impression material with outstanding ability to register severe undercuts without dragging or tearing. Used for crown & bridge, dentures, cast frameworks and for base models.

- High accurate impressions
- Colour change sequence indicates stage of impression
- Water is absorbed into the powder quickly achieving a smooth, lump free mix within a short mixing time.
- Germicidal - Set material is resistant to germs
- Dust suppressed and Cadmium and lead free
- Easy to mix

Flavour: Vanilla

Colour: Violet coloured during mixing time

Working time: 1 minute 30 seconds

Time within oral cavity: 30 seconds

Setting time: 2 minutes

Code	Description	Pack Qty
NOV12490	500g + scoop & water measure	Each

NovahDent Disposable 3-Way Impression Trays

Sideless

Quadrant

Posterior

3-Way impression trays with tear resistant mesh ideal for simultaneous crown & bridge impressions, counter impressions and bite registrations. It is anatomically shaped with ergonomically designed handles for ease of use.

Sizes: Posterior, Quadrant & Sideless

Colour: White

Code	Description	Pack Qty
NOV12120	Posterior	35
NOV12121	Quadrant	35
NOV12122	Sideless	35

NovahDent Disposable Impression Trays

Rigid plastic impression trays with integral handle for an accurate fit and excellent retention of impression materials. Available in 2 different colours.

- Deep sulcus
- Perforated and grooved for maximum retention of impression material
- Cost effective

Size: Small, Medium & Large

Colour: Blue & Yellow

NOV12144	Medium Lower # 4	12
NOV12145	Small Upper # 5	12
NOV12146	Small Upper # 6	12

NovahDent Articulating Papers (Single Sided)

Straight single sided articulating papers for marking areas of contact between opposing teeth. Available in blue or red with 50 or 100 micron thicknesses.

Colour: Blue & Red

Code	Description	Pack Qty
NOV12501	50 micron (Blue) 200 strips	Each
NOV12502	100 micron (Blue) 200 strips	Each
NOV12503	100 micron (Red) 200 strips	Each

NovahDent Articulating Papers (Double Sided)

Straight single sided articulating papers for marking areas of contact between opposing teeth. Available in blue/red with 100 micron thicknesses.

Colour: Blue/Red

Code	Description	Pack Qty
NOV12150	100 micron 200 strips	Each

NovahDent Articulating Papers (Horseshoe)

Horseshoe shaped articulating papers for marking contact areas of opposing teeth without using articulating forceps/tweezer. With white tabs at the end of paper to keep fingers clean. Available in blue or red with 100 micron thickness.

Colour: Blue or Red

Code	Description	Pack Qty
NOV12505	100 micron (Blue) 40 sheets	Each
NOV12506	100 micron (Red) 40 sheets	Each

NovahDent Dispenser Guns

Excellent quality dispenser gun for 50ml (1:1/2:1) and 50ml (4:1/10:1) applications. Excellent quality design and it works well.

Size: 50ml (1:1/2:1) and 50ml (4:1/10:1)

Code	Description	Pack Qty
NOV12640	Dispenser Gun For 1:1/1:1	Each
NOV12641	Dispenser Gun For 2:1/10:1	Each

NovahDent Mixing Tips

Mixing tips for use on A-Silicone or bite registration in 1:1 or 1:2 ratio cartridges. Colour of cap on cartridge indicates colour of mixing tip required.

Colour: Yellow, Green & Pink colours

Code	Description	Pack Qty
NOV12601	Mixing Tips - Yellow	48
NOV12602	Mixing Tips - Green	48
NOV12603	Mixing Tips - Pink	48

NovahDent Crown & Bridge Mixing Tips

Crown & Bridge Mixing tips for use on A-Silicone or bite registration in 4:1 or 10:1 ratio cartridges. Colour of cap on cartridge indicates colour of mixing tip required.

Colour: Blue with orange spiral

Code	Description	Pack Qty
NOV12608	C&B Mixing Tips - Blue	48

NovahDent Intra-Oral Tips

Intra oral tips for use on A-Silicone or bite registration in 1:1 or 1:2 ratio cartridges.

- Yellow Intra-Oral Tips fits yellow mixing tips
- Clear Intra-Oral Tips fits Pink and Green mixing tips.

Select Glass Ionomer Aesthetic Anterior Restorative Material

Based on a translucent alumino-silica glass, these restoratives offer excellent aesthetics without any compromise in strength and wear resistance.

- Superior aesthetics and range of shades
- Exceptional strength for long lasting restorations
- Easy mixing and handling
- High level of sustained fluoride release
- Excellent resistance to wear and erosion

Colour: Shades A1, A2, A3, A3.5, B2 & C3

Code	Description	Pack Qty
NOV13861	10g powder + 5ml Liquid - A1	1
NOV13862	10g powder + 5ml Liquid - A2	1
NOV13863	10g powder + 5ml Liquid - A3	1
NOV13864	10g powder + 5ml Liquid - A3.5	1
NOV13865	10g powder + 5ml Liquid - B2	1
NOV13866	10g powder + 5ml Liquid - C3	1

Select Resin Modified Glass Ionomer Luting Cement

A dual curing resin modified glass ionomer, ideal for luting crowns, bridges, inlays and onlays.

- Colour change assists use - makes trimming easy
- Aesthetic universal shade
- Strong adhesion to teeth and metal
- Needs no primer and mixes easily
- Excellent handling

Colour: Universal tooth shade

Code	Description	Pack Qty
NOV13859	10g Powder + 5ml Liquid	1

Select Ceramic Reinforced Glass Ionomer Filling Material

Features a ceramic reinforcing agent instead of silver tin alloy for significantly improved aesthetics.

- Metal free restorative with universal tooth shade
- Much more aesthetic - no 'black' fillings
- Exceptional strength for long lasting restoratives
- Good radiopacity - shows clearly under x-ray.
- Packable consistency for ease of handling
- Humid stable

Colour: Universal tooth shade

Code	Description	Pack Qty
NOV13860	10g Powder + 5ml Liquid	1

Select Temporary Cavity Filling Material

Ready to use single paste temporary filling material radiopaque. Used for temporary filling of cavities, temporary sealing of inlay preparations, temporary seal for medicaments and temporary fixing of post crowns. Sets in contact with moisture.

- Adequate strength yet easily removed
- Two stage setting - rapid set, quick to use
- Good adhesion to dentine - stays in place
- Excellent marginal adaptation.
- Standard and High viscosity versions

Colour: White

Code	Description	Pack Qty
NOV14320	Standard - 30g Jar	1
NOV14321	High Viscosity - 30g Jar	1

Select Etching Gel & Tips

Etching Gel for etching tooth enamel when preparing the surface for application of composite and restoratives.

- Fast and easy to place
- Excellent contrast with oral cavity
- Will not slump or stain tooth surface
- 37% Phosphoric acid gel

Code	Description	Pack Qty
NOV13385	12g Gel + 20 Tips	1

NovahDent Disposable Dappen Dishes

Disposable dappen dishes made of special plastic materials which is impervious to all dental materials and are designed for quick and easy mixing of materials. Available in different colours.

Colour: Blue, White, Yellow & Green

Code	Description	Pack Qty

NovahDent Blunt End Applicator Needle Tips

Disposable Applicator Brushes with black bristle heads and brush holding handles for precise application of etch and other material. holding handles sold separately.

Colour: White with black bristles.

Code	Description	Pack Qty
NOV13400	Brush Heads - Black Bristles	100
NOV13401	Brush Holding Handles - White	1

NovahDent Bendable Applicator Brushes

Disposable bendable applicator brushes with bendable heads for precise application of etch and other materials in difficult to reach areas such as corners and tightest places.

Size: 13cm in length.

Colour: Blue with white bristles.

Code	Description	Pack Qty
NOV13402	Applicator Brushes - Blue	100

NovahDent Bendable Applicator Brushes

Bendy Brush Applicators with black nylon bristles are a disposable applicator brush that are bendable for precise application in difficult to reach areas such as corners and tightest places.

Colour: Assorted Colours (Red, Blue, Green & Yellow)

Code	Description	Pack Qty
NOV13404	Applicator Brushes - Assorted	144

NovahDent Disposable Micro Applicators

Holds solutions in suspension, eliminating dripping, spilling and waste. The bendable portion allows for precise application in difficult to reach areas.

Sizes: Medium (Yellow, Blue, Pink & Green)
Large (Yellow, Blue, Pink & Green)

Code	Description	Pack Qty
NOV13420	Micro Applicators - Medium	400
NOV13421	Micro Applicator - Large	400

NovahDent Disposable Micro Applicators (Fine)

Disposable Micro applicator with non-linting, non-absorbent fibres arranged in a spherical shape. Holds solutions in suspension, eliminating dripping, spilling and waste.

Sizes: Fine (Yellow & Blue)

Code	Description	Pack Qty
NOV13410	Micro Applicators - Fine	400

NovahDent Blunt End Applicator Needle Tips

Disposable blunt end, pre-bent applicator needle tips with universal Luer lock hub for precise application of etchants, resins and flowable composites.

Size: 23G.

Colour: Blue.

Code	Description	Pack Qty
NOV13405	Applicator Needle Tips - Blue	100

NovahDent Capsule Dispenser Gun

Capsule dispenser gun for dispensing uni dose capsules.

- Durable with ergonomic design.
- Easy to use with fast delivery.
- Easily fits Dentsply, ESPE, GC and others.
- Compatible with standard cold sterilisation procedures.

Colour: Grey.

Code	Description	Pack Qty
NOV13440	Capsule Dispenser Gun - Grey	Each

NovahDent Interdental Wedges

Colour coded interdental wedges with an anatomical optimal shape.

Size: Small, Medium & Large

Colour: Blue (Small), Green (Medium) & Yellow (Large)

Code	Description	Pack Qty
NOV13530	Wedges - Small (Blue)	100
NOV13531	Wedges - Medium (Green)	100
NOV13532	Wedges - Large (Yellow)	100

Excalibur Ivory Matrix Retainers

High quality Ivory Matrix retainers, made from quality German Stainless Steel. Available in 3 different sizes.

Size: Narrow (5mm), Wide (6mm) & Extra Wide (7mm)

Code	Description	Pack Qty
NOV285901	Ivory - Medium (5mm)	Each
NOV285902	Ivory - Wide (6mm)	Each
NOV285903	Ivory - Extra Wide (7mm)	Each

Excalibur Tofflemire universal Matrix Retainers

High quality Tofflemire Universal Matrix retainers, made from quality German Stainless Steel offering superior corrosion resistance, even after repeated sterilisation procedures.

Size: 6.0 cm long (closed position)

Code	Description	Pack Qty
NOV285905	Tofflemire Universal	Each

Excalibur Nystrom Matrix Retainers

Nystrom Matrix retainer, made from quality German Stainless Steel. Available in both No. 1 & 2.

Size: 7.5 cm long (closed position)

Code	Description	Pack Qty
NOV285908	Nystrom - No. 1	Each
NOV285909	Nystrom - No. 2	Each

NovahDent Cleaning Bur Brushes

Adjustable flat type Bur Brushes made with brass or nylon bristles.

Colour: Brass or Clear Nylon

Code	Description	Pack Qty
NOV19305	Cleaning Bur Brushes - Brass	5
NOV19306	Cleaning Bur Brushes - Nylon	5

NovahDent Self Seal Sterilisation Pouches

Easy to open peel off sterilisation pouch with colour indicator to show sterilisation has taken place. Used for sterilisation in autoclave.

- Seal-Sealing pouches
- 1 paper side, 1 see through plastic side
- Sterilisation Indicator
- 3 bar seal for maximum protection
- Extra thick fluid resistant paper

Sizes: 57 x 130 mm, 90 x 255 mm and 135 x 280 mm

Code	Description	Pack Qty
NOV15599	Pouches - 57mm x 130mm	200
NOV15600	Pouches - 76mm x 225mm	200
NOV15601	Pouches - 135mm x 280mm	200

NovahDent Bowie & Dick Test Packs

NovahDent Absorbent Paper Points With Length Marked In mm (28mm Long)

Absorbent Paper points with optimal drying without piling and lengths marked in mm for depth measurement. Used in root canal treatment for drying or maintaining a liquid disinfectant. The pre-sterilised paper points remain firm and flexible even when wet. Supplied in a practical, ergonomically designed box for easy use. Iso colour coded for ease of identification.

Sizes: 28mm long in packets of assorted mix sizes 15 – 40.

Code	Description	Pack Qty
NOV22502	Size 15 to 40 Mix - 28mm Long	200

NovahDent Absorbent Paper Points With Greater Taper (28mm Long)

Absorbent Paper points with greater tapers and optimal drying without piling used in root canal treatment for drying or maintaining a liquid disinfectant. The pre-sterilised paper points remain firm and flexible even when wet. Supplied in a practical, ergonomically designed box for easy use. Iso colour coded for ease of identification.

Sizes: 28mm long with 0.04 and 0.06 tapers in packets of assorted mix sizes 15 – 40.

Code	Description	Pack Qty
NOV22503	Size 15 to 40 Mix - 0.04 Taper	100
NOV22504	Size 15 to 40 Mix - 0.06 Taper	100

NovahDent Rubber Dam Frames (Plastic)

Plastic Rubber Dam Frames designed for maximum cheek and lip retraction and added exceptional stability for all dental procedures.

Sizes: 127mm

Colour: White

Code	Description	Pack Qty
NOV22875	Rubber Dam Frames - White	10

Excalibur Rubber Dam Frames (Young)

Young type Rubber Dam frame with 7 tines and contoured frame is made of quality German stainless steel.

- Allows for smooth and easy attachment of the dam.
- Autoclavable.

Size: 105 x 95 mm.

Code	Description	Pack Qty
NOV285804	Rubber Dam Frames - Young	Each

Excalibur Rubber Dam Forceps (Ivory)

Ivory type Rubber Dam Forceps is a Ivory type forceps, made of quality German stainless with a slip ring clamp and special grooves on the working ends to open the clamp and to make sure they can not slip uncontrollably. It is used to grasp rubber dam clamps and their placement and removal on and off a tooth. Autoclavable.

Size: 17 cm.

Code	Description	Pack Qty
NOV285807	Rubber Dam Forceps - Ivory	Each

Excalibur Rubber Dam Forceps (Brewer)

Brewer type Rubber Dam Forcep, made of quality German stainless with a slip ring clamp and special grooves on the working ends to open the clamp and to make sure they can not slip uncontrollably. It is used to grasp rubber dam clamps and their placement and removal on and off a tooth. Autoclavable.

Size: 17.5 cm.

Code	Description	Pack Qty
NOV285805	Rubber Dam Forceps - Brewer	Each

Excalibur Rubber Dam Forceps (Ainsworth)

Ainsworth type Rubber Dam Punch, made of quality German stainless steel is used to make holes in all types of rubber dams. Its unique floating plunger strikes all edges of the cutting disc evenly, a perfect, tear-resistant hole every time. The cutting disc rotates through a range of 5 hole sizes, providing the correct opening for the smallest anterior tooth to the largest molar.

- Allows for smooth and easy attachment of the dam.
- Autoclavable.

Size: 16 cm.

Code	Description	Pack Qty
NOV285801	Rubber Dam Punch - Ainsworth	Each

Trusted Quality Products

NovahDent Polyglactin Sutures

Synthetic absorbable sterile surgical suture composed of a Copolymer made from 90% Glycolide and 10% L-lactide. It has minimal mild tissue reaction during absorption. Absorption of Polyglactin suture is completed between 56 to 70 days. Available with round bodied or reverse cutting needles.

- Sterilised by Gamma Radiation
- Consistently sharp cutting needle
- Resistant to bending and breaking

Thread Diameter: USP 3/0, USP 4/0 and USP 5/0

Thread Length: 45cm and 75cm

Needle Curvature: 1/2 Circle, 3/8 Circle & Compound Curve

Point Type of Needle: Round Bodied & Reverse Cutting

Colour: Violet

NovahDent Silk Braided Sutures

Non-absorbable Natural multifilament braided silk sutures are produced from the cocoons of silk worms. It is braided for easy handling and secure knot tying. Tensile strength is retention in tissue for up to 3 months. Available with round bodied or reverse cutting needles.

- Sterilised by Gamma Radiation
- Consistently sharp cutting needle
- Resistant to bending and breaking

Thread Diameter: USP 3/0, USP 4/0 and USP 5/0

Thread Length: 45cm and 75cm

Needle Curvature: 1/2 Circle, 3/8 Circle & Compound Curve

Point Type of Needle: Round Bodied & Reverse Cutting

Colour: Black

NovahDent Polypropylene Sutures

Synthetic non-absorbable monofilament suture which is extruded in filament with a computer control diameter. The tissue reaction is minimal. The Polypropylene in vivo is extraordinarily stable which makes them ideal to fulfil its purposes of being a permanent support without losing its tensile strength.

- Sterilised by Gamma Radiation
- Consistently sharp cutting needle
- Resistant to bending and breaking

Thread Diameter: USP 3/0 & USP 4/0

Thread Length: 45cm

Needle Curvature: 1/2 Circle & Compound Curve

Point Type of Needle: Reverse Cutting

Colour: Blue

Code	Description	Pack Qty
NOV24150	3/0; 45cm - 16mm compound curve reverse cutting needle	12
NOV24160	4/0; 45cm - 16mm 1/2 circle reverse cutting needle	12

Excalibur Mathieu Needle Holder

Mathieu needle holder made from quality German stainless steel.

Size: 14cm Long

Code	Description	Pack Qty
NOV283306	Mathieu Needle Holder	Each

NovahDent Polyester Sutures (Braided)

Synthetic non-absorbable multifilament braided suture. Because of its non-absorbable syntactic origin it has minimum tissue reactivity and in time it is encapsulated by connective tissue. Frequently used when resistance to repeated bending is important.

- Sterilised by Gamma Radiation
- Consistently sharp cutting needle
- Resistant to bending and breaking

Thread Diameter: USP 3/0

Thread Length: 45cm

Needle Curvature: Compound Curve

Point Type of Needle: Reverse Cutting

Colour: Green

Code	Description	Pack Qty
NOV24170	3/0; 45cm - 16mm compound curve reverse cutting needle	12

Excalibur Hegar-Baumgarther Needle Holder

Hegar-Baumgarther needle holder made from quality German stainless steel.

Size: 14cm Long

Code	Description	Pack Qty
NOV283306	Mathieu Needle Holder	Each
